STEINER BOOKS, United States, 2013. Paperback. Book Condition: New. 198 x 122 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The intertwined journey of human and dog has spurred the interest of anthropologists, biologists, historians, sociologists, and behavioral scientists. After all, the dog is man s best friend, so it is natural that people have wondered about how, why, from where, and when dogs came to be. From where? seems simple enough to answer one needs only to look at the dog s wild brother and, with Darwin s blessing, conclude that the dog s origin is the wolf. The rest of the questions are more difficult to answer, because the original assumption has led people astray. Nonetheless, the question this book tries to answer is whether the dog simply a domesticated wolf. If they are not the same, then what is the dog s true origin? If they are the same, why do human beings traditionally fear and hate the wolf and consider dogs their best friends? If these questions, as well as others that arise in the process of inquiry, are answered truthfully, then all of the scientific disciplines could be applied without conflict, which certainly has not been the case thus far. An excellent, compelling study of the issue of the origin and nature of dogs.it is also a study of our own nature, both the light and the dark, particularly in North America regarding the treatment of wolves. Out of this study emerges a better understanding of our own evolution of consciousness, and the role that dogs play in that journey. Rudi Verspoor, founder of Hahnemann Center for Heilkunst Homeopathy.
