

Pamphlets on Forestry in Kansas Volume 1 (Paperback)

By Books Group

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1893 Excerpt: .and less thrifty trees have invariably been removed, so that but little wood and practically no posts have been secured. At this writing, the walnut plantation of 1872 contains 322 trees, 190 of which are of sufficient size to out posts or poles. The best trees are 35 feet in height, with a diameter at the base of 8 inches, and, at five feet, 6 inches. The trees average slightly more than 20 feet in height and 5 inches in diameter at the base; at five feet, 4f inches. A planting made in 1875 upon the same kind of soil has given results very similar to the 1872 planting. This planting contains 735 trees, 582 of which will cut posts or poles. The best trees are 34 feet in height, 7J inches in diameter at the base, 6J inches at five feet. Where well thinned they...
