Being originally a colony of Quakers, the spirit of these religious philosophers exercises, to the present day, its influence on the minds of the citizens in general. Thus it has happened, that, while the city was growing to a considerable size, and was taking its place in the ranks of the first commercial communities, its inhabitants still retained an excessive, love for the cultivation of their firesides, and an indisposition to support places of public amusement. However laudable this may be in one respect, it has certainly been productive of great disadvantages, morally and physically; for it was owing to this circumstance that those places of amusement which existed, and always will exist in a large community, were of an inferior kind, where sensual gratification was in more repute than mental refinement; so that an individual, whose natural inclination was in opposition to a quiet life at home, was placed in much greater danger of becoming demoralized, than if our citizens possessed some really respectable and well conducted public establishments. It is only of late that a movement in this direction is noticeable; but, simultaneous with it, it became apparent to every interested person, that there was not a single theater in Philadelphia, worthy to represent the intelligence and refinement of a city of over five hundred thousand inhabitants.
